## Cupla with Single Lock Cupla with Safety Lock

Accidental disconnection prevention mechanism

The standard Cuplas listed on the lower right can have an additional single lock or a safety lock mechanism to prevent accidental disconnection.

- Cupla with Single Lock**  
 The sleeve is provided with a cutout and the body of the socket has a projecting lock pin or ball. After connecting the Cuplas, simply turn the sleeve to lock the back and forth movement of the sleeve.
- Cupla with Safety Lock**  
 A sleeve stopper Lock Ring is provided behind the sleeve. After connecting the Cuplas, simply turning the Lock Ring to disable the back and forth movement of the sleeve (see diagram sketch on the right top).

### How to operate the Safety Lock

#### How to lock

**Connected state (before lock)**

Slide the Lock Ring in the direction of the arrow A and rotate it in either direction simultaneously. When the Stopper is aligned with the shallow cutout on the Lock Ring, the Cupla will be locked.

#### How to unlock

**Connected state (locked)**

Slide the Lock Ring in the direction of the arrow A and rotate it in either direction simultaneously. When the Stopper is aligned with the deeper cutout on the Lock Ring, the Cupla will be unlocked.
